Fishing

The Allegheny National Forest offers the angler a variety of fishing opportunities from small native brook trout to trophy fishing for muskie, pike and walleye in the Allegheny Reservoir. The Allegheny Reservoir, a 12,000-acre impoundment on the Allegheny River, is the largest reservoir on the Forest.

Fly fishing: The forest abounds with hundreds of miles of stream trout fishing from the large tailwater fishery at the base of the Kinzua Dam to the tiny brook trout streams on the Allegheny Plateau. Kinzua Creek is a local favorite. Grey fox, march brown, green drakes and native brown trout are found in these waters.

Canoeing and Kayaking

The Allegheny National Forest provides camping and launching facilities in Pennsylvania. In New York the Seneca Nation of Indians (716-945-1790), Cattaraugus County (716-354-2615), and Allegheny State Park (716-354-9121) offer similar facilities.

The southern-most tips of the Red Bridge arm and Sugar Bay of the Allegheny Reservoir provide an excellent place for canoeing and kayaking. Access to these areas can be gained by using the Kiasutha Boat Launch.
